GT-F&D (LE) · SINGLE PHASE

# FILL & DUMP DISH WASHER

A door-type rack dishwasher built for high-turnover kitchens. Runs on a standard 120V single-phase outlet, all-304 stainless construction, mechanical controls any crew can operate on day one.

| 120V / 60Hz | 5.67 L | 16.9in | 304 |
|---|---|---|---|
| POWER SUPPLY | WASH TANK CAPACITY | LOADING HEIGHT | STAINLESS STEEL |

## FEATURES

- **Straight-through or corner** configuration to suit your dish pit layout.
- **Mechanical control timer** with selectable cycle times.
- **Built-in chemical pumps** for detergent, sanitizer and rinse aid.
- **Auto start / stop** on door close, so cycles never get skipped.
- **Convenient drain / fill switch** and active wash-cycle indicator light.
- **Full 304 stainless steel** tank, panels and frame.
- **Standard 19.7 × 19.7 in racks** — no proprietary consumables.
- **Plugs into a standard 120V supply** — no three-phase service required.
